# HOW TO TAKE MAXIMUM BENEFIT FROM VAASTU?

**Vaastu Shastra** is an ancient Indian architectural system that aims to create a **positive energy flow** in living spaces. It is based on the belief that aligning buildings with natural forces improves **well-being and prosperity**.

Vaastu works differently for different people because everyone has different elemental proportions, and therefore Vaastu behaves differently for each individual. One may not always get accurate results from standard Vaastu alone.

This is why **Vaastu and Astrology together play a perfect role**.

At Manuastro, we follow this combined approach to deliver the most effective results.
